# Conwin Balloon Tying Discs

## The Fast and Easy Way to Tie Balloons!

### Benefits:

- Increase productivity by attaching ribbon and tying balloon.
- Prevent sore fingers from hand-tying balloons.
- Designed for use with latex balloons up to 16 inches.
- Available in convenient 100 packs and 1000 packs.

1 Feed curling ribbon through ribbon guide hole located under tying post. Place the disc on tying post.

2 Hold the inflated balloon in your left hand. With your right hand, pinch the neck of the balloon and the ribbon together and stretch both around the end of the tying post.

3 Hold the stretched balloon neck and ribbon together in your left hand. Place your fingers behind the tying disc and slide the disc over the neck of the balloon.

4 Slide tying disc down approximately one inch on the neck of the balloon. Remove tied balloon from post and cut the ribbon on the convenient ribbon cutter.

# Conwin Archline Dispenser Pack Instructions

Item #36050

1. Place the Archline in the dispenser pack with the line feeding from the base of the spool(s).

2. Attach the Line Tensioner approximately 6 inches from the end of the line. Push the red button on the Line Tensioner to expose the metal hook on the top of the ball. Thread the Archline under the hook and release the button to capture the line.

The Line Tensioner will prevent the Archline from free spinning inside the pack when balloons are attached to the line.

3. Feed the Archline through the grommets in the lid and close the Velcro® flap. Pull the Archline to remove any slack inside the pack.

### Also Available... Conwin Archlines

Grips balloons securely and is unaffected by temperature. Will not stretch. Easier to work with than fishing line. Available in 50# and 150# test.

## The Black Belt

This innovative apron was designed and field tested by twisters and decorators. The unique and efficient Velcro straps on the sides of the Black Belt can hold up to 1000 entertainer balloons for easy access. The Black Belt features 12 specialty pockets enabling you to have your tools right at your fingertips. The Black Belt is made out of heavy-duty nylon woven fabric with reinforced stitching and features an adjustable belt that fits all sizes.

# Grip Guide Balloon Template Instructions

Item #32090

1. Place the ruled Template Strip on the edge of a table or work counter.

2. Press the black release button on Grip Guide to fully open the clamp. Position the open clamp with the brass tube pointing upward directly over the "0" measure on the Template Strip. Firmly squeeze the clamp to secure it to the countertop. Slide the brass upright into the tube and adjust until it is perpendicular to the countertop.

3. Attaching the 2nd clamp to the desired setting on the Template Strip. (Repeat step #2) To change the size setting, press the black release button on the clamp and reposition the clamp to the desired setting.

4. Slowly pull the slightly over-inflated balloon toward you through the two uprights. As you pull the balloon, gradually release the air until the balloon just passes between the two uprights.

# Grip-It Balloon Holder Instructions

Item #32190

1. Clamp the Grip-It Balloon Holder to any convenient counter top.

2. Slide the ribbon sideways into the spring coil.

3. Half twist the ribbon and press it firmly into the spring coil. This insures firm spring grip on ribbon.
