

High-Pressure Test Gauge Instructions

1. Hand-tight connect the Pressure Test Gauge to the cylinder.
2. Verify the bleed valve is closed. Turn T-bar lever clockwise to close.
3. Slowly open the cylinder valve. When the gauge needle stops moving, read the cylinder contents on the pressure gauge. Close the cylinder valve.
4. Close the cylinder valve and open the bleed to release the pressure from the test gauge. Close the bleed valve and remove the pressure gauge from the cylinder.

Conwin Safety Products

CYLINDER HAND TRUCK

2 and 4-Wheel Cylinder Hand Trucks

Designed expressly to support and transport helium cylinders. Industrial strength, powder-coated, reinforced steel frame features large ball-bearing wheels for ease in transportation.

CYLINDER SAFETY STAND

FREE STANDING

Cylinder Safety Stand

A must for safety in the shop or on the job! Conwin's Cylinder Safety Stand features a flat baseplate that provides greater stability. Two adjustable Velcro® safety belts secure all size cylinders. Conwin # 30120

Add-On Workbench for 4 Wheel Hand Truck

Create a large, convenient workspace with Conwin's Add-On Workbench for the 4-Wheel Hand Truck. The frame features a rack to hang Conwin's Balloon Caddy and 8-Spool Ribbon Dispenser. Conwin # 30220

REMOTE HELIUM SET-UP

Remote Helium Set-Up Counter-Top Outlet

Conwin's Remote Helium Set-Up keeps helium out of sight in the backroom or basement providing a clean and professional store appearance. Counter-Top Helium Outlet can be mounted at any convenient area.
